THE GESTRANCE OF SINDAY

Regarding the observance of the Lord's day, the letter says "the he at from us to not ocate such sunday love as would binder necessary sunday work, or would probable such popular enjoyments as are consistent with the sured ness of the day. There is one way of profaming the Lord's day which is so product of evil results that we feel it our duty to niter against it special condemnation. This is the practice of selling beer or other liquors on Sunday, or of frequenting large where they are sold. We hape San day laws on this point will not be relaxed, but even more rigidly enforced, and we implace all catholics, for love of food and country, never to take part in such sunday traffic, nor to patronize or countenance it and we not only direct the attention of all pastors to the repression of this souse but we call upon them to induce all their locks that be engaged in the sale of liquors to absunday, as soon as they can, the dangerous traffic, and embrace a more becoming way of makin an i ring." Washing role, the cit I—Especial I—It is stated here on good authority that strong effort is being made by friends of Samuel Wilson of San Francisco to have him appointed to a place in Cievelan's cabinet. His principal backer is Justice Field of the gupreme court, and the particular portfolio spoken of is that of the interior department. The movement is marked with considerable vigor, and will doubtless prores successful if the president-lette decides that the Pacific coast is entitled to the honor of contributing one of his official advisers, after having so signally fulled to support his electors at the polls in November last.

THE FIFER TATE COMMERCE BILL.

Liven loby justs for the railroads to-day gave op all hope of being able to pass the inter-siste commerce bill which they induced the commerce bill which the spiral of the railroads to recommend in place of the Reagan bill. The best informed persons about the capitol do not give more than seventy five votes for the committee bill, while Reagan's substitute will, it is expected, receive more than double that number of votes. It is Judge Reagan's intention to get a vote to morrow or his substitute, if he can limit the debate If not, a vite will be taken on Saturday It is so clear now that the committee bill is the child of the railroads but it is called the railroad bill by many members in debate

GUARDING AGAINST CHOLERA

A Committee of the Health Brards Prepares a MASHINGTON, Dec. L2—The committee on federal legislation appointed by the national conference of state boards of health has completed a bill, which embodies the views of the conference as to the best metha is of preventing the introduction into the United States of cholera and other diseases dangerous to public health.

The first of the ten sections comprised in the bill provides for a national buard of health, to consist of one member from e ery state health beard, now or hereafter to be established, to be appointed by the needlent and confirmed by the senate This differs from the original act, in that it largely increases the membership of the board, and excludes from i medical officers from the army, pacy and manual heaptial service, and a law officer from the department of justice

tourd, and excludes from it medical officers from the army, nary and maruse hospital service, and a law officer from the department of justice

The second section of the naw bill provides, as did the correst onding section of the original act, for the collection and dissemination of santary information, but greatly enlarges the scope of the board's powers by authorizing it to frame rules and regulations for the government quarantine service of the United States, and by vesting in it (the board all the authority whi in is now or may he safter be provided by law, for the control and protection of public health. It directs the national board to co-operate with local beards, as far as it lawfue by can, and aid in the enforcement of the latter's rules and regulations but it also unthorizes the national board, upon direction of the precident, to act in the enforcement of the precident, to act in the ever rul states independently, and make and enforce the own rules, regardless of local boards.

The third section relates to the regulation of the marine quarantine sterics, and authorizes the national board to frame rules to be observed by all vessels sain ag from foreign ports to ports of the United States and prolides that such rules, when approved by the president and issued by the department of state, shall be enforced by all constant of the serving under this act.

Section four provides that any vessel from any foreign port, with it shall attempt to enter any port of the United States, as well as by the medical officers serving under thus act.

Section four provides that any vessel from any foreign port, with the same rules and regulations, shall be liable to process, in the proper district court of the United States, in the proper district court of the United States, and upon conviction shall torfeit to the United States on the collection of the court, not exceeding \$1000, which shall be allowed the subsection of the court of the serving ports with these rules and regulations, every vessel shall be provided with a

to-day that the lifawallan treaty would tequire an enabling act to be passed by the house, the same as if it were a new treaty. Lobbrists for the treaty are trying to make it appear that it will not be necessary for it to go to the house. Your correspondent told the senator of the claim of the lobby and he misswered that the treaty requires new action on the part of the senate, and necessarily it will require new action on the part of the house.

A Public Dinner filves to Sensitor Gorman at Bale timors—the Gueeta and Proceedings.

Batquinone, Dec. 11—Seldom has such a representative gathering of public men been seen as that which met in the Foyer Academy of Music in this city to-night, at a dinner given by business men of the city to Senator A. P. Gorman. About 200 subscribers and invited guests were present, among the latter being venators T. F. Bayand, George W. Jones, John R. McPherson B. F. Jones, Wade Hampton, L. Q. C. Lamar, George H. Pendletan, Groome of Maryland, ext of Missouri and Cameron of West Virginia, Gov McLane of Maryland Representatives S. Cox and George A. Post Fleutenant Commander G. H. Gortings and Franklin B. Gowen.

The invited guests were met in Washington by a committee and brought to this city in epsecial cars. The arrungements for the banquet and the decorations of the ball were of the most insteful character.

init cars. The arrangements for the hanquet and the decorations of the half were of the most tasteful character.

The Moor of Gorman.

The first tossi was. The chairman of the indical democratic executive committee, a leader whose thorough and skillful organization we are happily indebted for the briliant victory of hist November.

Hou A. P. torman responded, saynr. "I thank you sincerely, Mr Chairman and geutlemen, for the kind manner in which the mentioning of my name has been received and for the tribute paid such services as I was able to render in the November campaign. As chairman of the national democratic executive committee, I must share, with many persons, the credit which you give to me. My labors would have been wholly unavailing, except for the support and active and of the chairman and in embers I the national democratic committee. Their labor and mine would have produced no good results unless our common efforts had been sustained by the efficient work of slate, county and local committees in the destable states of New bork, Indiana, Connecticut and New Jerset. These committees in their turn would have been unable to achieve a lore with out the powerful slid of the democratic and in dependent press, and the cordial support of multitudes of good men of all opinions in these states. These efforts would perhaps in turn have proved ineffectival except for the wisdom and disciption shown by the dehocratic and independent press, and by all sympathizing with us in known democratic states. Any act of improdence or folly committed in those states would have endangered on chances of success in debatable states.

THE HONOR APPRI LATED

I recognize therefore, fulls, that the honor which you representative business men of Bai timore do me is in truth an expression of your thanks to the hist of men whose uniting and patriotic efforts enabled us to succeed in the great and memorable struggle through which our country passed in the autumn of this year. We may well congratulate each other upon the result. The administration of Cleveland will fulfill the just expectations of all who supported him. He has no need to make new pledges. He can safely rest upon the assurance given in his letter accepting the nomination for president. His conduct as governor of New York is a smittent guarantee that his promises will be observed. We may be assured that under his administration the country will be governed with wisdom and prudence, and with the single purpose of promoting the welfare of the whole people of the United States. OTHER TOLERS

to the work which Senator Gorman performed during the late cam align. The third toast, the "Di mouraire party foundated by Jefferson, associated with all that is giorious in the fast alier to every demand of the present and every hope of the future," was responded to by Senator Rayard of Delaware whose appearance was received with strong demonstrations of gratification. John R. Fellows of New York, responded to the toast "Grover Cleveland his record is a history of administrative reform in this country, his nomination the demand of the progressive element of the people, his election the guarantee of enlightened public policy and partifical civil service."

Add six democrats, and in the colepars course of human events that party might old, and willi soon want to retire from their ardness duties, and democrats, it is said, base their hopes of getting control of the court partly on legislation and partly on the lottery of death or of physical mability But why this anxiety on their part to ge con-

troi of the supreme court? This is the question of seni interest. What do they want it is do? Since the republican party took the government twenty-four years ago great changes have been made in the constitution and laws. It has been a matter of great importance to have the su preme court so constituted that the purifical of that trib mal should be nather than heelile to the policy which the country has decreed and en-forced through the republican party. At all stages of the contest this policy has been antagonized by the democratic party. Ho they want a supreme court in ide up with a view to secura supreme route in the up with a view to secur-ing from it a line of decisions in accord with the old declarations of their party that the changes resulting from events that have (cour-red during their suspension from power are "unconstitutional revolutionary and voil?" In all cases of Bronchial and Pulmonary Affections is AFR'S (Herry Preformat. As such it is recognized and prescribed by the medical profession and in many thousands of families, for thoust forty years, it has been regarded as an invaluable household remedy. It is a preparation that only requires to be talent user small quantities and a few doses of it administered in the culy stages of a cold or cough will effect a speedy cure, and may, very possibly, save life. There is no doubt whatever that

"rer's Dierry Pectora Has preserved the lives of great numbers of persons, by arresting the development of Laryngitts, Bronchitis, Pneumonia, and Pulmonary Consumption, and by the cure of those dangerous maladies. It should be kept ready for use in every family where there are children, as it is a medic has far superior to all others in the treatment of Croup, the allevation of Whooping Cough, and the cure of Colds and Influenza, aliments peculiarly incidents to childhood and youth Promptitude in dealing with all diseases of this class is of the utmost importance. The loss of a single day may, in many cases entail fatal consequences. Do not waste preclous time in experimenting with medicines of doubtful efficacy, while the maindy is constantly gaining a deeper hold, but take at once the speedlest and most certain to cure.

"What does she want of to".

The child hadp't been loaded for this question, so she straightforwardly replied.

"I don't know, "in sure, only I heard mother tell father that if she had hold of the book for a day or two melbe somehody could get a rest."
The woman softly shut the coor in the little girl's face and went and carefully locked the cubinct or an with a brass key.

J M Farmum is a colored preacher in Charlotte, N C, and his fighting weight when skirmishing w th the legion of Satan is 410 pounds.
He stands six feet ten inches h gh without his boots, and, taken collectively, would be a dan-gerous man to fall under at a skating rink. Some time age a porthern gentleman met Mr some time ago a northery gentleman met Mr
Farmam in the south, and the latter ordered a
pair of acces made for him at the north, for
which this gentleman took the measure. The
order was given to Lymn's leading shoe manyfacturer, but it was too much for him, and a
pair of shoes were made from a special last in
Hoston and sent the reverend gentleman. The
shoes are thirt-fives. The length from heel to
toe is just threfives. The length from heel to
toe is just threnty inches, and the width of the
bait, including a protuberance that may be a
corn and may be natural; is a trifle over seven
and a half inches.

Some idea of the "tout ensemble" may be
gained from the fact that a pasteboard copy of
the sole of one of the above witch a reporter
carried in his overcost pecket extended from
the lowest depth of the pocket to the aru-puts
This copy was taken from a measurement of the
bootless foot of the clerry man, and those who
know pronounce it correct.

From the forward and of the sole a pleoathe size
of a desert plate coult easily be cut. The heel, if
of the pupper materia, weld make, a decidedly
generous dap-jack, and the whole thing, in
shape-and aire, gives one of the investible juspression of a tennis rachet or an elongated chirtfront without its symmetry.

Ned Mcconngle, for four years a pro-pector and miner in the Wood river country, was found dead in his bed at Halley hast Saturday aftermon. Deceased is well known throughout coutheastern Nevada and also a ifornia, where he has rended in former times.

The following from the Walla Walla Walla if atchman, under the head of 'Look Dout, Douterats,' is very touching. "It is almost a foregone conclusion that congress will repeal the pre-emption and timber culture acts and place such restrictions in the homestead law that the receipts of the Walla Walla land office will be so reduced as to make the offices of register and receiver at the place worth not to exceed from \$600 to \$500 a, ear. The same thing may be said of the Yakima and Vanconver offices. Let democrats of indicence beware lest they have one or these offices, supposed to be worth \$5000 a year, thrust upon them."

Bow he Kicked the Chairs are with Delight at Bialac's Defeat.

Wishington 'pe tol Dispatch 'emaior Edmunds is thoroughly delighted with the result of the late election. The reasons for his delight are two-fold. The first is pleasure at MY Blains a defeat. The second cause in that he believes that the delight are two-fold may be an actually four years from now. He would not have made any appearance in the last campaign, if he had not been actually forced out by the party mann gers in his state. He presuded at the Burthington meeting very much against life will, and what he said there was so feeble and hat bearted that it did more milery to the republican ticket than if he had remained silent. In Vermont party lines are drawn very rigidly. Such a hing at his peadence in politics is almost unknown. So, when Senator Edmunds practically refused to support the republican ticket, it made a great stall in that state. Governor Smitt and a number of ambitious Vermont republicans began to talk about defeating Edmunds for re-ele: not to the senate. This brought out Edmunds. He presided at the Burlington meeting, so that it could be said that he nominally, it least supported the ticket. He came out riserely to help himself, and, under the pla of ill health, being too much of a hypocrite to give his real reasons, it become help can that before the election he could have avied for them the state of New York through his infigence with the independents. They think that if it had made one speech in New York one week before the election he could have curried over enough independents to have given disting a plurality. His refusal to do anythough his excited great animosety towards hit in certain republican curries.
